*March 29th, 1813*

The shot from *Foraker's* bow chaser smashes into the Columbian brig's foremast in a cloud of splinters. With a slow inevitability and the shriek of tortured timber, it comes down in a tangle of lines, canvas, and shattered oak.

A cheer rises from the crew as they see their quarry stricken. Beside you on the quarterdeck, your Third Lieutenant grins with evident satisfaction. "They might as well strike now and save us the trouble, Captain."

Alas, the Columbian Captain proves less than considerate in that regard. The sun and stripes of the United Republics continue to flutter stubbornly from the vessel's remaining mast. However, the Columbians' famed intransigence can make little difference now, not with one of the brig's masts shot away and a fully armed and fully crewed frigate of Albion's Royal Navy in full pursuit.

Your officers look to you expectantly for orders. The day is yours, the only question is, how do you mean to seize it?

- ☒ "Let us see if a broadside cannot convince them to strike."
- ☐ "It should be easy enough to outmaneuver them now."
- ☐ "Best we get to the point: make ready to board."

### ABOUT THIS GAME

Become Saidah, a mother in search of her abducted child. Venture through morbid streets of the last city on a dying planet. Challenge a repressive regime under which your whole life is determined by which social caste you belong to. Save your child and find out if escape is possible.

Unholy takes place on a desolate planet where last members of the human race live in the Last City. This sprawling metropolis is divided between castes, and every day is shrouded in fear. Fear of being noticed by higher castes. Fear of being killed by a mysterious Plague that is slowly consuming the city. Fear of being caught by one of the maniacs or mysterious beast that are going through the streets at night.

Gameplay is a mix of horror and stealth game, where for each challenge can be overcome in several different ways. Will you sneak through the guards unnoticed or will you resort to murder, leaving behind you a trail of blood as you fall into madness?
